Which statement best describe your attitude towards hands-on projects best?

Check any that describes you	
As long as the job gets done, I'm satisfied.	
I enjoy projects that let me work with my hands.	
I do my own projects mainly because it's less expensive than hiring someone.	
Creative projects are a big part of my life. I love hands-on projects and can't wait to start a new project.	
I do my best on projects, but know that someone else could do a more professional looking job.	
Working with tools is a hobby for me.	
Working on projects helps me to relieve stress.	
In general I don't see do it yourself projects as fun... I do them because they have to get done.	
I subscribe to a DIY, woodworking, tool or craft magazine.	
When doing a project, I'm not thinking so much about how I like what I'm doing... I'm mostly thinking how great it will be to see the end result.
